Helpful Tips:

If you are having trouble finding your login information for eballot, search in your email for [noreply@eballot.com](mailto:noreply@eballot.com) or [noreply@votenet.com](mailto:noreply@votenet.com). These are the email addresses you would have received login information from. The subject line for the emails is Test Ballot.

The easiest way to connect to eballot is to use the link

<https://eBallot4.votenet.com/asa2021>

This is the link in your email from eballot.

If you are logged into eballot but don't see the ballot you are looking for, hit the refresh button on your page. It may be that you logged in before the vote loaded.
